## Registration Now Open for ATC 2024

*The American Transplant Congress Returns to Philadelphia, PA, with the Latest Findings in Transplant Science*

---

WASHINGTON, D.C. – The [American Society of Transplantation \(AST\)](#) and the [American Society of Transplant Surgeons \(ASTS\)](#) announced that registration is officially live for their joint annual event, the [American Transplant Congress \(ATC 2024\)](#). ATC 2024 will be held in Philadelphia, PA, from June 1-5, 2024.

As the leading forum for solid organ and tissue transplantation, the American Transplant Congress unites the entire transplant ecosystem from surgeons, scientists and physicians to nurses, organ procurement professionals, pharmacists, and allied health professionals. ATC 2024 will bring together the best minds in transplantation to share research and new scientific & clinical information, solve problems, and learn from each other, while also celebrating the monumental 70<sup>th</sup> year anniversary of the first successful kidney transplant.

“ATC 2024 is more than a scientific conference. It is a major step toward understanding and shaping the future of transplant medicine. Don't miss the opportunity to join the discussions, hear the latest in transplantation, and connect with colleagues” said Josh Levitsky, MD, MS, FAST, FAASLD, President of AST.

ATC 2024 attendees will gain exclusive access to an exciting line-up of speakers, research, networking, awards, and educational credit offerings – all outlined in a [daily schedule](#) on the event website. Members of AST and ASTS can save on registration through access member rates. Non-members can save by registering **by March 14, 2024**, to take advantage of the early bird rate.

“If you are enterprising and curious about the newest findings in transplant science, we invite you to register for ATC 2024. By attending, you will join thousands of peers and gain access to new techniques, ideas and solutions that can help you excel in your practice. Our hope is that you will also inspire a new generation of transplant medicine professionals,” concluded Elizabeth Anne Pomfret, MD, PhD, FACS, President of ASTS.

For more information about ATC 2024, to become a member, or **register**, visit: [atcmeeting.org](https://atcmeeting.org).

###

The [American Society of Transplantation \(AST\)](#), founded in 1982 is an organization of more than 3,500 professionals dedicated to advancing the field of transplantation and improving patient care by promoting research, education, advocacy, and organ donation. The society is the largest transplant organization in North America and is recognized as the premier society for transplantation. AST members are sought out as transplant experts and advocates.

The [American Society of Transplant Surgeons \(ASTS\)](#) was founded in 1974 by 127 surgeons to unite the professionals who were advancing the fledgling field of organ transplantation. From this small group of dedicated individuals, the society has grown to represent over 2,000 transplant professionals who are dedicated to saving and improving lives through the transformative power of organ donation and transplant surgery.
